FAR 15.305 — Past Performance Statement

Geaux Uptown Solutions LLC is new to government contracting but its principals bring documented commercial experience directly relevant to federal healthcare, IT support, and security-systems solicitations. Our CEO led a full 4-phase specialty pharmacy EHR go-live at a Level 1 trauma center (60 staff, 6 workflow stages) and managed clinical operations across a $276B Fortune 4 enterprise. Our Chief Logistics Officer brings direct experience in managed security services and IT hardware dispatch, including current nationwide hardware-support dispatch operations (Sagent, 2024–present), enterprise IT service desk and multi-site hardware lifecycle management (FleetPride, 2022–2023), and access-control/video-security installation, programming, and remote-monitoring dispatch across Brivo, Verint, OpenEye, DMP, Bosch, Honeywell, Feenics, and 2N platforms (Navco, 2020–2022). We operate active supply, medical-logistics, and security-hardware-delivery infrastructure currently serving commercial clients. We respectfully request evaluation under FAR 15.305, which expressly permits consideration of private-sector work for firms without prior government contracting history.
